

As you suggested, if i select NO in “SEO settings” and I log as SUPER ADMIN,

The screenshot shows the 'Global Configuration' interface. The 'Site Settings' tab is active. On the right, the 'SEO Settings' section is highlighted with a red box. It contains a 'Search Engine Friendly URLs' option with 'Yes' and 'No' radio buttons. The 'No' button is selected.

then I can see correctly the tags.

The screenshot shows an article search results page. The title is 'Articolo taggato con: Risparmio'. Below the title, there is a search filter section with a 'Cerca / Filtra' button. The results show 'Tutti: 3 Articoli' and 'Risparmio: 3 Articoli'. The 'Risparmio' tag is highlighted with a red box.

BUT

If I select YES and I log as SUPER ADMIN

The screenshot shows the 'Global Configuration' interface. The 'Site Settings' tab is active. On the right, the 'SEO Settings' section is highlighted with a red box. It contains a 'Search Engine Friendly URLs' option with 'Yes' and 'No' radio buttons. The 'Yes' button is selected.

then I cannot see the tags.

The screenshot shows an article search results page. The title is 'Articolo taggato con: Risparmio'. Below the title, there is a search filter section with a 'Cerca / Filtra' button. The results show 'Tutti: 0 Articoli' and 'Risparmio: 0 Articoli'. The 'Risparmio' tag is highlighted with a red box. At the bottom, there is a message: 'Nessun elemento trovato. Clicca qui per tornare alla pagina precedente.'
